The purpose of the Hazard Identification and Risk Assessment (HIRA) is to identify the number and frequency

2.0 HAZARD IDENTIFICATION AND RISK ASSESSMENT

Hazard Identification is the foundation of a safe workplace. At its most basic level, hazard identification is simply looking at a job, task or a situation and asking, “Is there anything here that could hurt someone or damage something?”.

HEALTH & SAFETY Hazard Identification and Control

Hazard identification is a key component in your safety management arsenal. Hazard identification is the first line of defence against incidents, injuries, deaths and unforeseen project and asset costs. In order to properly document and inform other stakeholders and workers of hazards, you need to improve your hazard identification process.

Hazard identification and risk assessment examples

While hazard analysis formats vary slightly from one agency to another, two basic elements are contained in both: hazard identification and hazard evaluation. Tables 1–3 illustrate generic examples of hazard analysis work sheets applicable to different jurisdictions (Tables 1 and 2: PCHF; Table 3 ...
