### **2020 Chapter Competition Sprint Round ... - MATHCOUNTS**

The area of rectangle ABCD is  $27(11) = 297$  sq units. If we subtract the area of the triangular region that is removed from the area of rectangle ABCD, the

## Online Library Abcd Ax Mathcounts

result is the area of pentagon ABEFD.  
Now  $CF = CD - FD = 27 - 15 = 12$   
units, and  $EC = BC - BE = 11 - 6 = 5$   
units. Thus the area of  $\triangle CEF$  is  $\frac{1}{2}(12)(5)$   
 $= 30$  sq units.
