Ada Diabetes Guidelines Summary

The ADA recognizes the association between social and environmental factors and the prevention and treatment of diabetes and has issued a call for research that seeks to better understand how these factors influence behaviors and how the relationships between these variables might be modified for the prevention and management of diabetes.

Standards of Medical Care in Diabetes 2020 Abridged for Primary ...

When you eat or drink things that have carbohydrate, your body breaks those carbs down into glucose (a type of sugar), which then raises the level of glucose in your blood. Your body uses that glucose, or sugar, for fuel to keep you going throughout the day. Knowing what kind and how many carbs to eat is important for managing diabetes.
