Classical or contemporary; architectural photography can be as challenging as it is rewarding. Here are some pointers to help you get started... 1. Be sensitive to the direction of light as this can increase contrast, shadows, textures and reflections. High levels of contrast can fool cameras into exposing the scene incorrectly, but shooters can easily [...]

## **9 Architectural Photography Tips**

Using a flash for interior architecture will help balance the exposure across the entire frame. This is how I typically use a flash. Put the flash on a tripod or a stand, and place it a few feet away from the camera (on each side of the camera if you use two flashes for larger rooms), and a foot or so behind the camera.
