If it moves twice as fast, its momentum is as much. 2. Two cars, one twice as heavy as the other, move down a hill at the same speed. Compared to the

Conceptual Physics Chapter 7 Momentum And Energy Answers

Concept A concept is a general approach to achieving something. Concepts are broad and not concrete. A concept describes WHAT to do, but not exactly HOW. That's where ideas come in. Idea An idea is a way to carry out a concept. A way to put the somewhat vague concept into practice. A concept is like an umbrella under which many ideas can be ...
