Content Strategy for the Web was a great overview of learning the process of content strategy at a large organization. Having worked at a large NYC based digital strategy agency most of the concepts in this book were familiar. Even the look of the site and content maps were familiar from what I've seen presented and used in client meetings.

That means investing some time to know your target B2B audience—their interests and their needs—and creating relevant content related to those. In short, your content must address user intent, but if your sole intention is simply to rank for a keyword, your B2B keyword strategy is already a lost cause.
