Get shopping advice from experts, friends and the community! My router #315.175040 won't work. I think the switch has failed. I took it to sears in Maryville Tn today for repair. The woman behind the counter seemed very disinterested. That is a 25 mile trip one way for me. I came home looked in the owners manual, got the ph# for you, got the part # for the switch from the owners manual, called ...

Here is my first question: I have a CRAFTSMAN router, model 315.175040, and I would like to know where to buy accessories that for sure will fit this tool. I would like to know which router table do you recommend that (although not too expensive), will fit this model and help me get my projects done.
