IHS Global Construction Services

GlobalData's central forecast is for global construction output growth to edge up to 3.2% in 2020 and then to stabilize at 3.4% over the remainder of the forecast period, which runs to 2023. This is in part driven by a projected improvement in the global economy in 2020, which in turn relies improvements in financial market sentiment and a stabilization in some of the large currently-troubled emerging markets.

Global Construction Outlook to 2023 - Q3 2019 Update

Global Construction Outlook: Executive Outlook Fourth-quarter 2013 ihs.com IHS Economics Global Outlook Global construction spending increased in 2013, as it finished the year up 2.4% over 2012 levels. The much-anticipated acceleration in growth did not occur, and in fact the rate of increase slowed slightly from the 2.5% increase the previous year.
